at the Steering Wheel

Once again it is the start of a new year. I was just getting used to using 2016 on my written checks! We will start off the new year with our first meeting on January 12th, the second Thursday of the month, at 7:30 PM at our usual Haddonfield Borough Hall meeting place. It will be different for me to stand in front of you and lead the meeting. I am usually in the background putting my two cents in when needed! We will see how this year develops. I know that Bob shook his head when I suggested myself for president. Which way he shook it, I am not sure, but he has agreed to help me as I have helped him over the years. He knows all of the things that each president needs to do to keep things running smoothly. I plan to take plenty of notes and hope to put together a "President's Kit", really a checklist of all the things that must be done, so that it will be much easier for a person other than one in our family to take the helm—hint, hint.

At our first yearly meeting, I would like to have a discussion whether members would like to have presentations at the meetings or keep them strictly business with social time afterward. I hope to continue with having some sort of outside of the meeting get-togethers on a regular basis. If anyone has ideas of things

we could do or places to visit, please let me know. Also, this need not be car related. We did several things during 2016 that were enjoyable and did not directly include cars, which I know pleased some of the wives. I'd like to get more of the spouses involved with our endeavors. For quite a while it has only been a handful of us that have been around on a regular basis. Many of you have offered to help in any way and I may be taking up the offers as the year goes by.

photo by Bob Petters

Before closing, I wish to thank Carol and Tom McClarmey for all of their work in holding the 2016 Holiday Party. Once again everyone raved about it and how much they enjoyed themselves. Everyone agreed that they wanted to go back to the Madison. We also talked about that for 2017, we will try to get the date for a week earlier. The Food Bank will be getting \$800 this year from us—\$400 collected from our very generous members who attended and our club match of \$400. Go onto our website to see photos from our evening.

If you have not renewed for 2017, this may be the last newsletter that you get, so please send a check to Tom for your 2017 dues.

In February, we have the 81st AACA meeting in Philadelphia. It has been years since I was in attendance, but this year I will be going!

A man at work asked my opinion of old Volvo 240s as he knew I had a station wagon. I gave him my opinion. A few weeks later he told me he had had his non-Volvo daily driver to a local garage for maintenance. The garage, in Falls Church, had been a Volvo specialty shop through the 1990s and still is to some degree. My friend told me he had seen an unusual Volvo there while picking up his driver. He described it as a small, yellow station wagon, with a "For Sale" sign on it. In 1973, I had looked at a used 1972 1800 ES, with the intent of having my mother take her Vega wagon, but decided

against it due to poorly repaired body damage. However I studied my want of ownership of an 1800 ES for the following fifty years. The Volvo 1800 ES was built for only two model years, in late 1971 as a 1972 model and 1973. Unlike other Volvo 1800 cars were produced since the mid-1960s, but not as an ES. The "ES" designated the engine had a Bosch Jetronic fuel injection system and the "87" stands for Sweden. The car has an 1800 cc engine making 125 horsepower. This engine is mated to an M41 manual, four-speed transmission with layshaft de-Sumner's overdrive. It is equipped with four-wheel disc brakes, weighs 2600 pounds and is 171.5 inches long with

On the Road, Loud, Mean and Running Great! The 1971 Camaro

By Mike Scuderi

It was a simpler time, a loaf of Wonder Bread was \$.25. A gallon of regular gas was \$.24 and you could fill your tank from dead empty to full for under five bucks.

In 1971, with a full-time job paying \$8,600.00 per year, the purchase of a 1971 Camaro like this was a dream come true at \$3,200.00, that lasted for 120,000 miles of smiles.

Fast forward to 2020. I built this beauty from a bucket of rust and a fistful of bolts for way more than the original price but, it's a time machine that transports me back to the simpler times of 1971 everytime I start it up and drive down the road."

Getting There

Paul and Tracy, David and Joyce, Darrin, Barrett, and I headed down 90 to Lafayette, Louisiana. The slow going on 90 took its toll, but when the rain started, it was nice to be traveling slowly. About 30 minutes into the rain, the blue skies appeared, and the next challenge appeared. The big green sign that was posted at our next turn said Highway 90 was closed at the border. We traveled the remainder of the route on the interstate, traveling 60-65 miles per hour.

We arrived at the destination with just an hour until

the opening banquet. The greetings started, and we went off to our room to refresh. We met with the other six members of the Great Southern Region, the Bibb's, McClellan's and the Senkbeil's.

We walked over to the opening banquet. It was a nice time to say hi to everyone and get the basic information for the days to come.

The first day of the tour started at the hotel. We visited the German Heritage Museum in Roberts

1987 Buick Grand National

Owner David Linebeck, Old Salem Chapter

In 1987, Reagan and Gorbachev met in Washington DC to discuss concerns from the ongoing Cold War. Madonna, Bon Jovi, and U2 were leading the music charts. Lethal Weapon and Dirty Dancing were box office hits, and my Buick Grand National, Natalie, was built.

Also in 1987, I was a senior at NC State University and had been dreaming of owning a Buick Grand National ever since I first started reading about them in car magazines. I worked summers and mowed yards when I was home on miscellaneous weekends, holidays, and breaks. I calculated that I could make payments on the car for 9 months per year but the other 3 months were the issue. My parents, after hearing me talk about the car

The weekend started off on Thursday, February 8th, with a pre-convention excursion to the Steven F. There were thousands of aviation and space exploration artifacts, including the Space Shuttle Discovery, the SR-71 Blackbird, the B29 Superfortress, and many other historically significant aircraft. Our group also enjoyed a wonderful buffet lunch, overlooking the restoration hangar and the Space Shuttle.

Over 300 AACA members attended.
